

# Living Creatively

## November 4-Day Psychodrama Workshop

Saturday to Tuesday: 2-5 November 10.00am - 5.30pm

**Director:** Sue Daniel

Everyone is creative. How we live our lives, work, study, make changes and create the spaces around us, all of this involves creativity, which is the origin of learning. The more we connect with this source, the more we can become spontaneous and expressive. As life becomes more vibrant, we become more energetic and involved in life, with the result that we have more empathy for ourselves and others. This workshop is designed for people interested in finding creative new ways of being, to enrich your work life, and personal and social relationships. It will suit people who are working in a range of fields, communities and organisations, in the health and education fields, youth work and pastoral care. Methodology includes all aspects of the psychodrama method and some theoretical input. Participants in this workshop can expect to enjoy themselves while experiencing the fullness of the psychodrama method, become more confident, and gain additional skills in leadership and groupwork.
